
CDC - Internship Report (2024-2025 Till May 2025)

The Career Development Center (CDC) at IIT Palakkad is committed to enhancing students' capabilities, refining their personalities, and preparing them for the professional world through comprehensive placement training and career preparation workshops. The center actively collaborates with industry partners via internships, industry visits, Industry-Academia Conclaves, and guest lectures by industry experts. The institute's rigorous yet flexible curriculum is designed to equip students with the skills needed to excel in dynamic and competitive industrial environments. The CDC operates under the leadership of a Faculty In-Charge and a dedicated Training and Placement Officer (TPO), who work together to guide students toward career success.

INTERNSHIP:

More than 85 companies visited the campus for the current academic year across various sectors such as Research and Development, Information Technology, Core Engineering, Analytics, Government, Consulting, Management, etc. The participating companies made a total of 54 internship offers. The internship season saw participation from major recruiters like Arista Networks, Alpha Wave Semi, Amazon, Wabtec, Siemens, Texas Instruments, Bosch, Dassault Systems, TCS R&I, AMD, Delta Electronics, etc.

Key Highlights:

1. Amazon offered INR 1,20,000, this is the highest on campus internship stipend 2024-2025.
2. Arista Networks offered INR 75,000 stipend per month per person to 7 students.
3. Texas Instruments made the maximum number of offers (10 offers).
